Tactile Switch

EVPBB0AAE000

Very small tactile switch with a high operation force of 3N

Adding a highly robust tactile switch to the EVPBB series with an high operation force of 3N while maintaining its small size and low profile. This new tactile switch is especially suitable for applications demanding precise haptic feedback and distinct tactile response. Additionally, it is well-suited for use in harsh environments, including conditions involving dust and moisture, owing to its IP67 rating.

Key Features

- Low profile (0.5 to 0.57mm)
- Small size (2.6 x 1.6mm)
- High operability (equipped with an actuator (push plate)
- IP67
- High operation force with 3N

Wearable devices

- Hearing aids
- Smart watches
- Fitness tracking devices

Safety

- Panic Button
- Small tracking devices

Mobile devices

- Smartphones
