

Control Web Creator (Trial version) Ver. 3.5.0

Information you need to know before using the software (Essential reading)

About Control Web Creator (Trial version) Ver. 3.5.0

This is a screen creation software for the Web server function. (FP7 CPU, KW2M-X, ELC500) (Trial version).

Please use the version of the following if you are using the Web server function.

- FP7 CPU: Ver.3.30 or more
- FPWIN GR7: Ver.2.6 or more
- KW2M-X: All Versions
- ELC500: All Versions

The Web server has the following limitations.

- Concurrent access number: 16 sessions
- Customer web: Content maximum capacity 8 MB

With the exception of the following content, you will be able to have you try all of the retail version of function.

- Usable parts will be 5 parts / screen.
- At the same time available screens is one screen.
- Storable screen will be two screens.
- The project that was created in the retail version can't be used.
- It will work without the USB key unit (AFPSWCKEY). Key unit is not required.

System Requirements

Make sure that the computer on which you intend to run the software meets the minimum specifications listed below.

OS	Windows® 10 (64bit) / Windows® 11
Available hard disk space	500MB or more
Applicable PLCs	FP7

Please check the browser to access the Web server.
[Access to the Web server available to web browser]

Windows	Google Chrome Mozilla Firefox Opera Microsoft Edge
OS X	Safari Google Chrome Mozilla Firefox
iOS	Safari Google Chrome
Android	Google Chrome
