

Wire-saving Connector  
**CN-701**

Thank you very much for purchasing Panasonic products. Read this Instruction Manual carefully and thoroughly for the correct and optimum use of this product. Kindly keep this manual in a convenient place for quick reference.

**1** PRODUCT OUTLINE

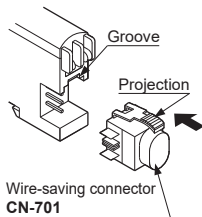

- This is a product for power supply to the fiber amplifier connected to the communication unit for the digital fiber amplifier **SC-GU1-485**.

**2** CONNECTION

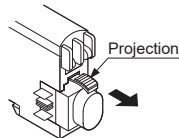

Make sure that the power supply is off while connecting or disconnecting the wire-saving connector (**CN-701**).

**Connection method**

- ① Holding the connector of the product, align its projection with the groove at the top portion of the fiber amplifier connector.
- ② Insert the connector till a click is felt.

**Disconnection method**

- ① Pressing the projection at the top of the product connector, pull out the connector.

Note: Take care that if the product is pulled out without pressing the projection, the projection may break. Do not use a product whose projection has broken.
