

3414

FireRay Hub reflective system

Features

- › Reflective Beam detector enables excellent accessibility and user-configurable settings for long-term ease of maintenance and ownership
- › Low level system controller for up to three detectors, on a single cable run
- › Configurable for use between 8 and 120 meters
- › Laser assisted, motorized Auto-Alignment technology
- › Building Movement Tracking compensates for natural shifts in alignment from building movement
- › Light Cancellation Technology compensates for high levels of sunlight and artificial lighting
- › Contamination compensation compensates for gradual build-up of contamination on the optical surfaces

General

- › Tested and approved according to EN54-12
- › VdS approval: G223077
- › CPR: 2831-CPR-F4372

Order number

- › 3414 - FireRay Hub reflective system
