## EY75A8

### High power: 280Nm

The newly designed hammer mechanism ensures a compact yet highly durable unit. Tightens to M16 and pre-tightens to M20. Equal torque in forward or reverse means speedy assembly and disassembly.

### Increased housing durability

Bumper protection has been increased to reduce wear on housing surfaces, a tougher rubber helps avoid oil and solvent damage to grip areas and new metal battery contact liners for extra durability in serial use applications.

### Compact body: 143mm

Easy handling when working in tight spaces or when using longer sockets.

### Battery level indicator

One-push battery level indicator helps avoid work interruptions due to low battery.

### LED light

Even in poorly lit areas, the 3 mode integral LED light can illuminate the working area.
